

RISK ASSESSMENT (HIRA)

Evaluating Risks in the workplace is the foundation of any safety program that aims to protect employees. The course teaches anyone engaged in this task how to structure an assessment so that all relevant hazards and risks are addressed.

This practical course will provide learners with the necessary tools and skills to enable them to carry out hazard identification and risk assessments in the workplace.

It is recommended for management and supervisors, SHE representatives practitioners and any person who is expected to carry out formal hazard identification and risk assessments

Duration: 1 Day

Legislation: Sections 17 and 18 of the Occupational Health and Safety Act & SANS 10085

Outcome: The aim of the course is to enable responsible and informed contributions to the health and safety effort in the workplace.
