

EMERGENCY & EVACUATION

In the event of a fire, gas leaks, bomb threats or any other threat requiring the need to evacuate people in a hurry from your premises, proper preparation and having an emergency evacuation plan will prevent pandemonium and potentially save lives. We recommend this course for both business and homes as everyone needs to be prepared for the unexpected.

Large or small scale evacuation, from a bomb threat to flood or explosion will present challenges

FTS Safety's course will emphasize Proper planning and use of multiple exits to ensure full and complete evacuation. Consideration for personal situations which may affect an individual's ability to evacuate must be evaluated.

Duration: 1 Day

Legislation: Section 9 of the Environment Regulations

Objective: On completion of this course, the learners will have the knowledge to enable them to understand the need for emergency awareness and evacuation in the workplace.
